

Terms of Reference

Hiring of Consultancy Services for Architectural & Engineering Survey, Detail Design & Supervision of the Rehabilitation, Upgradation & Reconstruction of Healthcare Facilities throughout the Sindh Province.

The objective of the project is to improve the utilization and quality of basic RMNCAH+N for and vulnerable population especially women and children, in targeted areas of Sindh. This is to some extent expected to be achieved through strengthening / rehabilitating of health facilities for providing preventive care. This will include and not limited to the reconstruction, rehabilitation, and upgrading of government dispensaries, basic health units, rural health centers with referral points, and THQs/DHQs to ensure quality healthcare and a continuum of services. The project will also support the strengthening of secondary healthcare facilities. The scheme involves the detailed design and supervision of the health facilities.

Against this background, the Program Management Unit (PMU) of the Sindh Integrated Health and Population Program requires the services of a qualified and experienced architectural and engineering consultancy firm (the Consultants) to carry out rapid surveys of 392 GDs, 39 THQs, 97 RHCs, 4 RTIs, 6 PHSSs, and 10 CMWs which have been selected for rehabilitation / upgradation and reconstruction, and 121 BHUs that are fully damaged and will be reconstructed, along with a schedule of the above-mentioned health facilities for reconstruction, rehabilitation, and upgradation (**year-wise health facilities detailed attached at annexure 1 & 2**).

ELIGIBILITY CRITERIA

The participated bidder(s) must fulfill the following mandatory requirements, failure to compliance shall not be considered for further evaluation:

- The Firm must have a valid registration with PEC & must have Active Registration with Income Tax & SRB. (If any firm is participating and doesn't have valid registration the time for registration will be given)
- In the case of Joint Venture, the JV firm must have Active Registration with Income Tax & SRB.

The bottom of the page contains several handwritten signatures and stamps. From left to right: a circular stamp, a signature with the date '21/4/23' written below it, a signature, a signature with a large 'S' and 'P' written next to it, and a signature.

- Affidavit on Non-Judicial Paper of Rs.500/- that the Firm(s) must not have been Blacklisted by any Government, Semi Government and Private sector all over Pakistan.
- Affidavit on Non-Judicial Paper that the firm(s) not involved in any litigation with any Government, Semi Government and Private Sector Executing Agency OR if involved the details must be mentioned.
- The firm must have following technical staff currently working with given experience in required field of expertise:, List is given in the end of document.

Technical Staff	Year of Experience	Technical Staff	Year of Experience
Architect	20 Years	Environmental Engineer	05 years
Structure Engineers	20 Years	Material Engineer	05 years
Electrical Engineers	10 Years	Mechanical Engineer	10 years
Contracts Engineers	10 Years	Health, Safety & Environment Officers	05 years
Resident Engineers	15 years	Social Specialist	05 years
Site Engineer	10 years	Environmental Specialist	05 years

- The documents may be sent through an authorized representative or through courier service. In the case through courier service then the official Address of Consultant Firm must be mentioned therein and, in that case, if any loss or late delivery happens then it will be sole responsibility of the applicant.

Documents to be submitted by the firm / bidder are as under:

- A valid NTN (National Tax Number) certificate along with the last five years' tax returns.
- A certificate from the Sindh Revenue Board.
- A valid PEC (Pakistan Engineering Council) license/certificate of consultancy, along with a copy of the PEC license of the relevant year that confirms the required 10-years' experience of the firm.
- Letters of award/consultancy agreements, work order of the contractor (affirming project cost) and performance certificates of successfully completed projects.
- Letters of award, work order of the contractor (affirming project cost) and consultancy agreements for ongoing projects.
- A letter of award and completion certificate affirming 10 years of experience working in the government and private sector. A letter of award of ~~ten~~ years of experience with government or private sector, affirming the involvement of the firm in consultancy services for the last 10 years.

DESCRIPTION AND SCOPE OF WORK FOR DETAILED DESIGN

Term of References for the consultants will be as under:

- Scope:** Need Assessment, Preparation of site plans, layout plans, elevations, detailed architectural plans / design / drawings with 3-D view and model; structural design / drawing, Mechanical, Electrical and Plumbing (MEP) as well as Fire Alarm & Fire Fighting (if applicable) design / drawings and complete design and drawings with specifications of lifts and HVAC works and other hospital related drawings with complete details. In case of ongoing work, the consultant shall perform the vetting of the drawings, design and

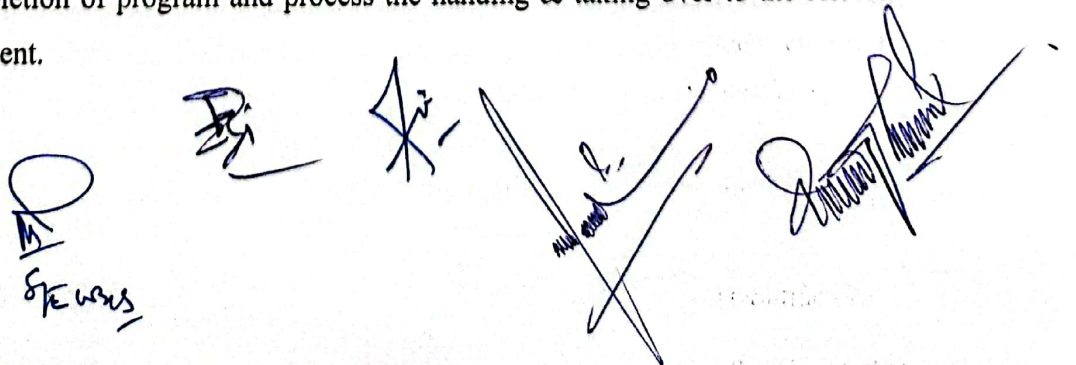

supervise.

2. Preparation of Detail Cost Engineering Estimates based on Need Assessment. This will reduce the chances of revision of the scheme during execution and the scheme will be prepared, with proper specification suitable to the geographical and climatic condition especially for the hit region of Sindh.
3. Assist the Procurement Specialist in the PMU in preparation of Bidding Documents.

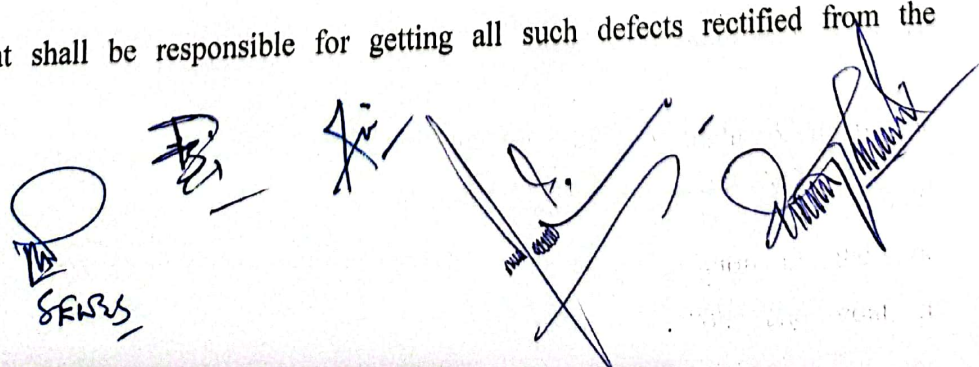

The Consultant will complete the above design services of each phase/package within a period of two (02) months from the date of issuance of execution letter for that phase / package.

DESCRIPTION AND SCOPE OF WORK FOR DETAILED CONSTRUCTION SUPERVISION:

1. The Consultant shall perform duties of an "Engineer In charge" (The Engineer) to supervise construction with the best professional and consulting standards to ensure that the buildings are constructed / renovated according to the specifications satisfactorily.
2. In carrying out the assignment, the Consultant shall undertake the following works for all the facilities:
 - a) Issue instructions to the contractor(s) and provide engineering supervision for the execution of works.
 - b) Ensure quality control through laboratory tests and other non-destructive tests at the expense of the contractor.
 - c) Make measurements of the work done as a basis for running payments to the contractor (s). Detailed measurements of the works shall however be recorded jointly with the Contractor and get the same certified by the Resident engineer of the Consultant.
 - d) Issue variation orders (if any) with the Client's consent/approval.
 - e) Submit monthly progress reports. Maintain estimate and comparative statement of project costs and submit reports to the Client.
 - f) Assist in liaison on the technical requirement between the Client and Contractor.
 - g) Review and approve "As Built" drawings prepared & submitted by the Contractor at completion of program and process the handing & taking over to the relevant department.

- h) Prepare amendment / modification required in Construction Drawings during execution without any extra charges.
3. The Consultant shall certify that works are executed as per approved design, drawings, standard specifications, and within the provisions of contract agreement.
 4. The Consultants will carry out environmental and social screenings at each site using the checklist provided in the ESMF as per World Bank Environmental and Social Standards (ESSs) of overall Environmental and Social Framework (ESF) policy and prepare the necessary environmental and social safeguards instruments (ESMPs). The ESMPs will form part of the bidding documents and will provide guidance to the contractors in the preparation of their ESMPs.
 5. The Consultant shall also supervise the contractor in all matters concerning Health & safety and care of the work and advise the Client on any problem arising in the construction work during its execution.
 6. The consultant shall accordingly conduct EIA / IEE study as per Sindh Environmental Protection Act (SEPA) and accordingly, obtain the necessary NOC from Sindh Environmental Protection Agency, as per regularity requirements.
 7. The Consultant shall certify that the construction material brought to site by the contractor(s) is in accordance with the specifications and is tested (if any) as per standard practices.
 8. The Consultant shall certify the contractor's running payments clearly indicating that the quality of work executed is according to the specifications, design, drawings, technically sanctioned estimate, and contract agreement and make recommendations for payment to the contractor along with test reports. The Consultant shall further be responsible for the quality and quantity of works.
 9. The Consultant shall carry out detailed final inspection of the work and shall recommend to the client for the issuance of completion certificate stating that the work has been completed as per design, drawings, standard specifications, and contract agreement.
 10. Consultant shall be responsible for getting all such defects rectified from the

The bottom of the page features several handwritten signatures and initials in blue ink. From left to right, there is a circular stamp with the text 'SEPA' inside, followed by a signature that appears to be 'S. H. Raza', a signature that appears to be 'A. H. Raza', a signature that appears to be 'S. H. Raza', and a large, stylized signature that appears to be 'S. H. Raza'.

concerned contractor(s) and final payment of the contractor(s) shall be verified only after satisfactory removal of the defects.

11. Client's authorized representative may regularly visit the site for checking resident supervision of the consultant and the quality of work executed by the contractor and issue necessary instructions to the consultant or contractor(s) for proper execution of the work at site.

1. **Part-A**

Assist the client in preparation of basic concepts, preliminary planning and designing of the project according to approved government and World Bank requirement/ standards.

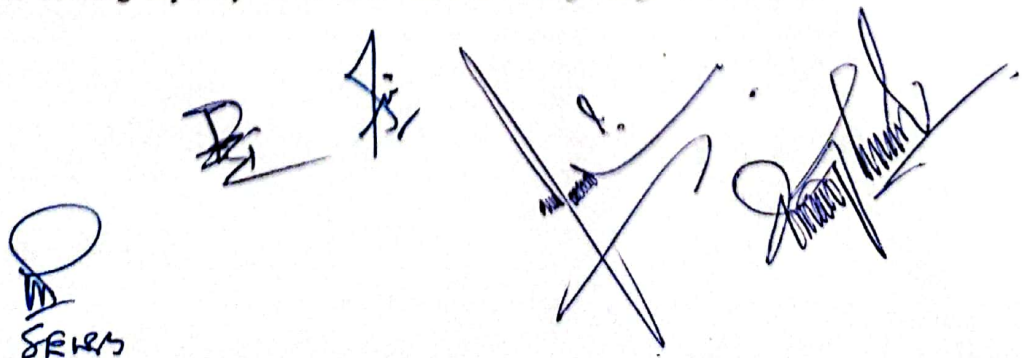

- a. Collect, compile, study and review various models available within the country.
- b. Make presentation before the PMU authorities regarding various options and rational / justification of most appropriate recommended options for approval.
- c. Suggest implementation strategies and guidelines for cost effectiveness and optimization of project resources to be utilized for the purpose, and in selection of appropriate quality design.
- d. Preparation of layout plan and preliminary architectural designs/drawing. The design should be economically sustainable and environmentally friendly meeting Local Municipality / Sindh Building Control Authority (SBCA).

2. **Part-B Topographic Survey**

Detail Engineering surveys will be carried out which include reconnaissance survey, land position and buildings face etc.

3. **Part-C Sub-soil investigation**

Preparation of sub-soil investigation and laboratory testing to be carried out for determining the bearing capacity of the soil and relevant geological information at their own cost.

The block contains several handwritten signatures and initials in blue ink. On the left, there is a signature that appears to be 'S. R. R. S.' with a circular mark above it. To its right are several other signatures, including one that looks like 'J. S.', a large 'X' mark, and a signature that appears to be 'S. R. R. S.' again, followed by another signature that is partially obscured.

4. Part-D Design of infrastructural and Building Works

- a. Preparation of site plans, the elevation, preparation of detail architectural and engineering design drawing of building, fixing details of different systems including water supply, gas supply, sewerage system. HVAC, disposal works, electrical systems, waste management system, firefighting & fire alarm system, security system, voice, data and networking etc. of the entire complex (wherever applicable in the project facilities).
- b. Prepare drawings and *assist the Client* to get these approved from the Project Director PMU.
- c. Conduct site-specific E&S Screening and accordingly prepare Regional/District Wise/ Category-Wise ESMPs on the basis of ESMF and the World Bank Environmental and Social Standards of overall Environmental and Social Framework policy. During the Planning and Design stage the compliance of ESMP, Gender Action Plan and Labor Management Plan parameters and the Environmental, Health and Safety Guidelines (EHSGs, with general and industry-specific examples of Good International Industry Practice, GIIP) requirements will be considered.
- d. Preparation / modification / revision of PC-1 for capital, revenue and human resource components (if required).
- e. Preparation of detailed working estimates and bill of quantities for such of preparation of Bid documents for the contractors.

5. Part-E Bidding Documents and Award of Contract:

- a. Preparation of final construction drawings, interior and finishing works, vetting of specifications, recheck of Bill of Quantities as on new construction drawings and recheck of cost of estimates based on schedule of rates / market rates.
- b. Preparation of detailed construction drawings and providing at least 3 copies of the final sets of such drawings to the client.
- c. Furnishing of detailed construction drawings at least 05 copies of the final sets of such drawings to the client.

The block contains several handwritten signatures and initials in blue ink. From left to right, there is a signature that appears to be 'S. K. S.', followed by 'B. S.', 'A. S.', a large stylized signature, and another large stylized signature on the far right.

- d. Provide assistance to the Client in arranging / executing agreements as per standard codal requirements and quality control of the relevant services.

6. Part-F Development of Forms

- a. The consultant shall develop standard forms for reporting.

7. Part-G Construction Drawings

The consultant shall prepare construction drawings in a clear concise and uniform manner in digital format and shall submit a final copy of complete drawings after approval of the Project Director of PMU.

8. Part-H Scope of Services for Detail Supervision

The consultant shall undertake detail supervision of the project and allied works up to completion. The firm will ensure quality control, project monitoring both financially as well as technically in the interest of PMU. As a minimum the services will include as under:

- Establishing criteria for testing of steel and other construction materials before start-of each work so that they shall conform to the design requirement and specifications and enforcement of the same on every stage of work.
- To check and confirm the established quality control measures during construction, including selection and use of construction materials in accordance with the specifications.
- Checking that the construction of the contract is carried out in accordance with the latest design drawings and contract documents.
- Initiating variations and instructions relating to the work with the approval of the Project Director PMU. The consultants shall give written Intimation to Program Director of PMU about defects and deficiencies found in the work, observed during its supervision and instructions shall be issued to contractor for rectification of such works to the satisfaction of consultant and the employer.

S. K. N. S.

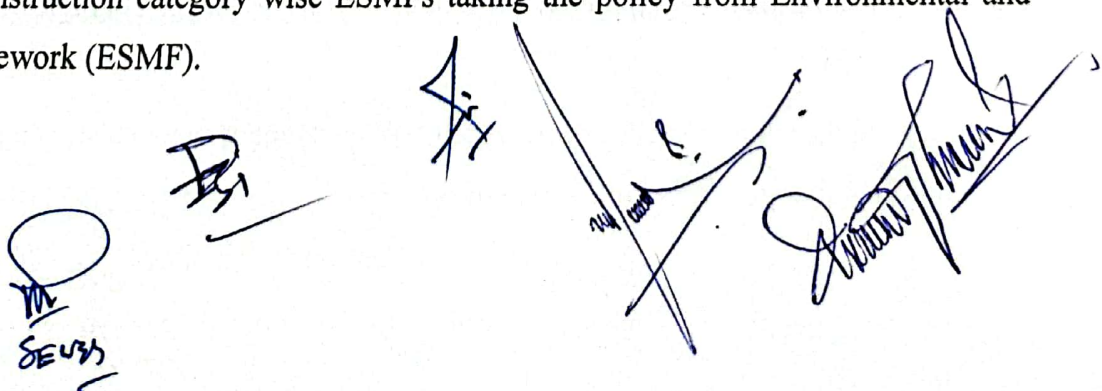

- Ensuring implementation of work in accordance with the architectural and structural design and drawings approved by the competent authority and in conformity with the specifications laid down.
- Ensure that all works are carried out in Compliance of site-specific E&S instruments including Environmental Social Management Plans (ESMP), Gender Action Plan (GAP) and Labor Management Plan (LMP) during the construction activities/implementation phase.
- Ensure full compliance with relevant national/provincial rules, laws and regulations.
- Suggestion and advise, as and when required during the project, protecting the interest of the procuring agency.
- Assisting the contractor in selection of material and its testing. This work should be supervised in the presence of the consultant's representative or if considered necessary it will be jointly supervised by the consultant's and client's representatives.
- Ensuring upon completion of the work, that the contractor provides such records and maintenance manual as are necessary for the operation and maintenance of the work.
- Issuing certificate of satisfactory completion of all stages of work.
- Checking verifying and certifying as-built drawings prepared and submitted by the contractor.
- Checking, verifying, and certifying that the work is done according to program specifications.
- Providing such staff in supervision such that the work is executed generally according to the contract specification and otherwise in accordance with good engineering practice.
- Must carefully check for safe and sound execution of the project.
- Ensuring protection of all utility services of various utility departments.

9. PART-I Environmental and Social Management Services to the Client

- The consultant needs to hire the necessary expert staff for the Preparation of the District Wise or construction category wise ESMPs taking the policy from Environmental and Social Framework (ESMF).

Handwritten signatures and initials in blue ink, including a large signature on the right and several smaller ones on the left.

- The ESMPs will outline the environmental and social risks, impacts, their mitigation and the budget costing along with implementation arrangements required for implementation, monitoring and reporting., The Environmental Engineer will assist with the Design, Tender / Bidding documents to comply with the implementation targets set in the ESMF/ESMP document.
- In addition to the site-specific E&S instruments, the following key works shall be developed:
- Site specific Design Water facilities (Collection of water sample through contractors and analysis at the selected/agreed laboratory). During the need assessment if it is highlighted that clean water is not available, make sure that contractor made provision for the use of appropriate quality of water during the construction and curing of the school structure during construction.
- Ensure the provision of toilets along with the proper disposal system in each facility is compulsory (site specific disposal options must be provided, appropriate disposal system shall be provided as per the local environmental conditions and social considerations, with septic tank and connect to Municipal Sewage system. In case of absence of disposal options of septic tank with soak pit etc. may be evaluated depending upon site specific conditions such as soil type, depth of water table, proximity to surface water bodies etc.)
- In case any additional resources are required for the provision of utility (like new water connection, electricity connection, evaluate the Government challan fee and cost of infrastructure). This cost must be part of the bidding documents. The work will be executed through contractors.
- Architectural design to capture natural lighting, energy and resource conservation equipment/ancillary facilities and well-ventilated infrastructure requirements.
- Site specific adaptation of alternate source of power supply to off-grid GDs.
- Other scope which could help for the implementation of the ESMP/site-specific instruments.
